The complete list of at Construction Care services is as follows:

- **Architecture & Interior Designer:** *Architects* and *interior designers* are professionals who develop design plans. ... *Architects* design buildings, while *interior designers* use furniture, fixtures and other accessories to create a desired look and function for spaces inside a building.
- **Civil Work:** *Civil Work* is primarily that *work* which is fixed to the house and cannot be changed easily. It includes tiling, bathroom renovation, breaking any walls, fixing the kitchen platform, electrical *work*, etc. It is usually messier and more tedious compared to the other *work*.
- **Epoxy Flooring Work:** An epoxy floor coating transforms a plain concrete slab into a smooth, finished surface that is oil- and water-resistant and easy to clean.
- **False Ceiling:** In simple terms, a *false ceiling* is a fitted *ceiling* that hangs below the original *ceiling* of a room or home. It's usually *suspended* by wooden or metal frames and the illusion it brings of a lower *ceiling*, sometimes with parts of the original *ceiling* on display, has earned it the moniker 'dropped *ceiling*'
- **Paint Work (Colour Work) & POP Ceiling Work:** The goal is not just changing the *colour* but also increase the value of your property.
- **Pest Control:** *Pest control* services help in eliminating the irritants from our homes, offices or any closed space that we spend our time in. Once pests are removed,
- **Plumber:** *Plumber* is a tradesperson who specializes in installing and maintaining systems used for potable (drinking) water, sewage and drainage in *plumbing* systems.
- **Waterproofing Work:** Waterproofing is necessary for the Basement, Walls, Bathrooms, Kitchen, Balconies, Decks, Terrace or Roofs, Green Roofs, Water Tanks, and Swimming Pools, etc.
