

## Wood Pest management / Ant Service

### **Carpenter Ants:**

Carpenter ants are large, powerful ants that can destroy wood and other building materials that they nest in.

Most ants are small and nest underground, only rarely becoming anything more than a nuisance. Carpenter ants (see photo right), on the other hand, are large ants that nest above ground in cavities such as tree stumps and in the walls, subfloors or roofs of our houses where they can cause extensive and expensive damage. Winged & wingless carpenter ants

### **Winged and wingless carpenter ants:**

Carpenter ants are generally larger than 3/8" and all black or red and black. Winged ants, the so-called reproductive may be present in late spring but for most of the year carpenter ants are wingless.

### **TYPES**

winged carpenter ants

wingless carpenter ants

### **Why Click Zippy?**

- **ASSURITY**  
if any Mistake done by our professional then we can give again best services is free of cost after surety of wrong services.
- Service totally done by trained professionals within time limit that means fast services.
- Professional service is affordable rate so you can satisfied your need.
- We are based on application and website so Customer can book online services at their place and get services at doorstep.
- Easy comparison of Qualitative services and their rate.
- Broad category of services we have.
